

I am deeply honored to have been nominated to be on the MPSEOC Executive Board. While I have only been in Enrollment Services on the admission side for 2 years, I have been in higher education for 10 years. I have been privileged enough to be on several boards for financial aid associations. While those have been challenging and fulfilling in their own right, getting to be a part of the MPSEOC is something else altogether. The work that MPSEOC does is invaluable. I look forward to bringing the Community College perspective to the team and helping to continue to promote Higher Education across Montana.
